**主题:** Decision to ACCEPT (A) - MM-007933.R2, Multi-view label sharing for visual representations and classifications

04-Sep-2017

Dr Chunjie Zhang  
School of Computer and Control Engineering, University of Chinese Academy of Sciences Beijing, China Beijing Beijing  
China  
100095

Paper: MM-007933.R2 "Multi-view label sharing for visual representations and classifications".

Dear Dr Chunjie Zhang:

We are pleased to inform you that the above manuscript has been ACCEPTED for publication as a REGULAR paper in the IEEE IEEE Transactions on Multimedia.

In order to begin the publishing process, all of the items in the checklist below must be uploaded to ScholarOne no later than 2 weeks from the date of this letter. The IEEE IEEE Transactions on Multimedia has a commitment to deliver valuable technical information to the signal processing community in a timely manner. To that end, the IEEE IEEE Transactions on Multimedia, its editors, and staff are making every effort to ensure that the submission of finalized papers not be delayed. We hope you will assist us by the careful preparation of your final submission.

Please note that your manuscript will be made available on IEEE Xplore within 3 weeks after receipt of the final materials. This will be an "early access" version that will be later replaced by the fully edited version after you have submitted the revised proofs. Both the "early access" and fully edited versions will have the same Digital Object Identifier (DOI); they will be equivalent as far as citations are concerned.

The IEEE requires that authors must transfer to the IEEE in writing any copyright they hold for their individual papers. However, the copyright form does NOT have to be uploaded with your final files. Once you complete the final files upload, ScholarOne will redirect you to sign the electronic copyright form. If you are unable to access the form after you submit your final files, ScholarOne will retain a link to "Transfer Copyright" next to the entry for your finished paper in the submitting author's Author Center.

Please submit final files as close to publishable as possible. The production department will be editing the submitted final files very slightly, so be careful to proof your final files before submitting. Guidelines for preparing final materials to the IEEE style can be found at: [http://www.ieee.org/publications\\_standards/publications/authors/authors\\_journals.html#sect](http://www.ieee.org/publications_standards/publications/authors/authors_journals.html#sect) under "Article Templates."

Final Files Checklist:

[ ] One PDF file of your final manuscript in Double Column Single-Spaced format with the text, abstract, figures and tables, all references and authors' bios w/photos.

PAGE LENGTH: The final submitted version of your manuscript may not exceed 16 pages in the double-column, single-spaced format including figures, photos, and bios. Your paper will not be sent to production if it exceeds this limit. Additionally, any manuscript that exceeds 8 pages in double-column format will be charged mandatory overlength fees.

The rate is \$220/page starting on page 9 of a published manuscript.

[ ] One electronic copy of the finalized manuscript in LaTeX or MS Word formats including editable source files for figures and tables. The source files ( .tex, .doc, .eps, .ps, .bib, .db, .tif, .jpeg, ...) may be uploaded as a single .rar or .zip archived file. (FYI: restricted file types are shs; exe; com; vbs)

[ ] Editable source files of the bios and portrait photos of all authors. Also, please provide some means of identification that lets us know what name goes with what photo. Please note that including photos and bios in your published paper is not mandatory.

[ ] Supplemental electronic materials (Multimedia), to illustrate the concepts described by the authors, if applicable. If you are submitting such materials to publish along with your paper, please add the following paragraph (edited to reflect your own files) after the author affiliation paragraph(s).

"This paper has supplementary downloadable material available at <http://ieeexplore.ieee.org>., provided by the author. The material includes...[please list all materials to be included as multimedia/supplemental material]. Contact [author email address] for further questions about this work."

IEEE Xplore can publish data sets, multimedia files and Matlab code along with your paper. For this purpose you can provide a single .rar file, or the links to such files in a README file that will appear on Xplore along with your paper. It is important to designate the .rar file as "multimedia\_materials.rar." For details, please see [http://www.ieee.org/publications\\_standards/publications/authors/authors\\_journals.html#sect6](http://www.ieee.org/publications_standards/publications/authors/authors_journals.html#sect6) under "Multimedia Materials."

=====

All the above listed materials must be uploaded through the "Awaiting Final Files" status link in the submitting author ' s Author Center on ScholarOne Manuscripts. Please upload all files in a single session using "submit final files" link, and make sure the final package is 100% correct and complete upon submission. Once your final files are submitted you will not be able to make any changes until you receive the galley proofs from the IEEE.

\*PLEASE NOTE: By submitting the final files of your manuscript, you are acknowledging that you have read and accepted the rules established for publication of manuscripts, including agreement to pay all over length page charges, color charges, and any other charges and fees associated with publication of the manuscript. Such charges are not negotiable and cannot be suspended.

Per the IEEE PSPB Manual, any substantive and unauthorized changes made to your accepted article during this final stage of the publication process must be communicated in writing to the Editor, who then will decide if a re-review is necessary. This includes addition or removal of any citations. Failure of such notification may be considered as author misconduct, and at the discretion of the Editor may be reported as such to the IEEE Vice President – Publication Services and Products. If any changes are necessary, please contact the journal administrator prior to submitting your final materials through ScholarOne Manuscripts.

Any inquiries regarding these rules should be directed to Adrienne Fisher at [a.r.fisher@ieee.org](mailto:a.r.fisher@ieee.org). For any questions regarding the peer review process, please contact me.

=====Open Access=====

The publication is a hybrid journal, allowing either Traditional manuscript submission or Open Access (author-pays OA) manuscript submission. Upon submission of your final files, if you choose to have your manuscript be an Open Access article, you commit to pay the discounted OA fee if your manuscript is accepted for publication in order to enable unrestricted public access. As of 01 January 2017, the OA fee is \$1,950. Any other application charges (such as charge for the use of color in the print format) will be billed separately once the manuscript formatting is complete but prior to the publication. If you would like your manuscript to be a Traditional submission, your article will be available to qualified subscribers and purchasers via IEEE Xplore. No OA payment is required for Traditional submission.

=====

Thank you!
