主题:	[TNNLS EiC] Acceptance Decision: TNNLS-2016-B-6802.R1

24-Sep-2017

Dear Dr. zhang:

*** It is your responsibility to read through this whole email to avoid delays in publishing your paper. We had some papers published with significant delays since authors did not read this email carefully. ***

I am very pleased to inform you that your paper TNNLS-2016-B-6802.R1, "Object Categorization Using Class-Specific Representations" by zhang, chunjie; Li, Liang; Li, Changsheng; Tian, Qi, has now received final approval for publication as a [Brief Paper] in the IEEE Transactions on Neural Networks and Learning Systems.

Your manuscript is currently in the queue for publication in the IEEE Transactions on Neural Networks and Learning Systems. The final version of your manuscript cannot change after this final acceptance for publication (except some minor comments at the beginning of this email, if any).

Currently, the electronic files of all accepted manuscripts need to be uploaded on Manuscript Central. Please find below Instructions for uploading your final manuscript for final processing before publication.

I offer my congratulations on your forthcoming publication in the IEEE Transactions on Neural Networks and Learning Systems and look forward to receiving future submissions from you.

```
**************************
```
What will happen next?
```
**************************
```

1) You will need to upload your final electronic files to Manuscript Central. Please do that at your early convenience. We need to reduce the time needed from author's first submission to publication. That is why we do not want to wait for too long. Please inform me if you need more than 10 days for you to upload your final files.

2) Our staff editor will email you a galley proof after your final paper is "edited" for printing. PLEASE MAKE SURE THAT YOU GO THROUGH THE GALLEY PROOF WITH YOUR CO-AUTHORS TO IDENTIFY ALL PROBLEMS. After your paper is printed, nothing can be changed anymore. This is your VERY LAST chance to make any corrections.

Sincerely,

Haibo He
Editor-in-Chief
IEEE Transactions on Neural Networks and Learning Systems

Robert Haas Endowed Chair Professor
Department of Electrical, Computer, and Biomedical Engineering University of Rhode Island Kingston, RI 02881, USA

Email: ieeetnnls@gmail.com

```
**********************************************************************
```
INSTRUCTIONS FOR AUTHORS OF ACCEPTED MANUSCRIPTS
```
**********************************************************************
```

The final version of your manuscript must comply with IEEE periodicals requirements for text and graphics processing. Detailed information regarding the format of your final submission can be found here:

http://www.ieee.org/web/publications/authors/transjnl/index.html

To upload your final files, please log into your author center and click the "Awaiting Final Files" queue. Please only upload the requested files and please do not submit any files or forms via email, post, or fax.

In addition to uploading your files, please check that the author-supplied data, such as contact and co-author information in Step 3 of the final submission process, is correct and complete. Failure to enter complete author and co-author information in the designated area during uploading may result in publishing delays.

The following items are required before your paper is processed for publication. Please be sure that all files match the final version of your accepted manuscript (no further revisions are allowed from your last version of accepted manuscript), that each item in the list below is included, and that each file has a unique name. Once you upload your final submission, you will not be able to add or change your files.

Kindly upload within 10 days from today the following two files: (1) A pdf version of your final manuscript; (2) A single zip file which contains all the following files:

* A cover sheet with email and phone contact information for the corresponding author. If you are an IEEE member, please use the email address of your IEEE member's account so that galley proof will be delivered quickly.
* Tex, Latex, or Microsoft Word application files that exactly match the pdf file. Please name the Tex, Latex, or Microsoft Word using your paper ID such as TNNLS-2013-P-0123.
* Digital source files of the artwork in Word, Tiff, Postscript, EPS, Excel, or Powerpoint.
* For Regular papers only: Author photos and biographies (you can find samples of biographies from any IEEE journal papers). Author biographies are restricted to 200 words each. No photos and biographies are required for Brief and Comments papers.

*** Please make sure that each file in your final submission has a unique file name in order for all of them to export successfully to IEEE for publication ***

TNNLS has moved to an all electronic copyright submission system. After you have submitted your final files, a link for "transfer copyright" will appear in your Author Center, next to the listing for the paper in the "Manuscripts with Decisions" queue. After clicking the link you will be brought through a series of questions, and will be able to download a confirmation of your copyright transfer upon completion. If you do not see such a confirmation, please make sure that it says "ECF Exported on DD-MM-YYYY" under "Actions" for this accepted manuscript in your account. (It means that your Electronic Copyright Form has been transferred to IEEE earlier on that date. No need to do the copyright form again. You are all set.)

Please note that a pdf version of your final manuscript is NOT sufficient for publication. We must receive the source files of your text and figures in order to process your paper.

If you have any questions regarding the final submission please contact me or:

Mr. Michael Hellrigel
Associate Editor, IEEE Transactions/Journals Department
email: m.hellrigel@ieee.org
Phone: +1 732 562 6878

Thank you for your kind and timely cooperation in processing your manuscript for publication. I am sure you will be happy with the final result.
