Dear Dr. Yang:

It is a pleasure to accept your manuscript entitled "Underwater Image Matching by Incorporating Structural Constraints" in its current technical form for publication in International Journal of Advanced Robotic Systems. However, the English polish is highly demanded before the final publication. The comments of the reviewer(s) who reviewed your manuscript are included at the foot of this letter.

Thank you for your fine contribution. On behalf of the Editors of International Journal of Advanced Robotic Systems, we look forward to your continued contributions to the Journal.

Sincerely,
Professor Qirong Tang
Topic Editor, International Journal of Advanced Robotic Systems

Comments to the Author

This paper have concerned all my comments. I think this version can be accetped by the journal.

Reviewer: 1

Comments to the Author

All my concerns in the previous review cycle have been addressed. I think that the paper could be accepted after further polishing the English presentation.

Associate Editor(s)' Comments to Author:

Comments to the Author:

The manuscript now can be considered to be accepted for publication, however, due to the recommendation from reviewers, it should be polished again before final publication. Accept is recommended from my side.
